

HECO

INVESTMENT OBJECTIVE

The EcoLogical Strategy ETF seeks capital appreciation through an actively managed portfolio of ecologically-focused companies.

REASONS TO INVEST

Seeks Capital Appreciation

Ecologically Focused

INVESTMENT STRATEGY

- The Fund is an actively managed exchange-traded fund ("ETF") and, under normal conditions, will invest at least 80% of its net assets in the exchange-listed equity securities of ecologically-focused companies.
- The Fund will invest at least 65% of total assets in common stocks of ecologically-focused companies organized in the U.S.
- The Fund may also invest up to 35% of total assets in common stocks and American Depositary Receipts of ecologically-focused companies organized outside the U.S.
- The Advisor applies ecologically-focused criteria to identify U.S. and foreign companies that have positioned their business to respond to increased environmental legislation, cultural shifts towards environmentally conscious consumption, and capital investments in environmentally oriented projects. These companies include all companies that are components of recognized environmentally-focused indices.

* Inception: 06/18/2012

The performance quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling 855-HSS-ETFs or visiting StrategySharesETFs.com. Market returns are based on the composite closing price and do not represent the returns you would receive if you traded the shares at other times. The first trading date is typically several days after the fund inception date. Therefore, NAV is used to calculate market returns prior to the first trade date.

Performance & Risk Statistics Since Inception

	HECO:NAV	HECO:MKT	MSCI ACWI TR Index ¹
Cumulative Return	97.53%	96.82%	76.81%
Annualized Return	13.74%	13.66%	11.39%
Standard Deviation	9.43%	10.61%	9.71%
Sharpe Ratio	1.24	1.09	0.96
Alpha (vs. MSCI ACWI)	4.40%	3.71%	-
Beta (vs. MSCI ACWI)	0.80	0.86	-
Correlation (vs. MSCI ACWI)	0.84	0.80	1.00
% of Positive Months	66%	65%	68%
Maximum Drawdown	-9.15%	-10.13%	-13.45%

Standard Deviation: A measure of the dispersion of monthly returns from its mean return, also known as historical volatility. **Sharpe Ratio:** A risk-adjusted measure of a fund's performance that indicates a fund's return per unit of risk, defining risk as volatility (standard deviation). **Alpha:** A measure of performance on a risk-adjusted basis. **Beta:** A measure of a fund's sensitivity to market movements. **Correlation:** A statistical measure of how two securities move in relation to each other. **Maximum Drawdown:** A measure of the maximum loss from a peak to a trough of a portfolio or index, before a new peak is attained.

RISK CONSIDERATIONS:

Past performance is not a guarantee of future results.

Investors should carefully consider the investment objectives, risks, charges and expenses of the EcoLogical Strategy ETF. This and other important information about the Fund is contained in the full or summary prospectus, which can be obtained by calling (855) HSS-ETFS (855-477-3837) or at www.StrategySharesETFs.com. The Strategy Shares are distributed by Foreside Fund Services, LLC, which is not affiliated with Rational Advisors, Inc., or any of its affiliates.

There are risks involved with investing, including possible loss of principal. The ETF may trade securities actively, which could increase its transaction costs (thereby lowering its performance) and could increase the amount of taxes you owe by generating short-term gains, which may be taxed at a higher rate. The ETF's ecological investment criteria limit the types of investments the ETF may make. This could cause the ETF to underperform other funds that do not have an ecological focus. In addition to the normal risks associated with investing, international investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principals or from social, economic or political instability in other nations. If the ETF invests more than 25% of its net assets in a particular asset class, or securities of issuers within a particular business sector, it is subject to increased risk.

Shares are bought and sold at market price (not NAV) and are not individually redeemed from the ETF. Brokerage commissions will reduce returns.

1. The MSCI All Country World Total Return Index ("MSCI ACWI") is based on the MSCI Global Investable Market Indexes (GIMI) Methodology and captures large- and mid-cap companies across 23 Developed Markets and 23 Emerging Markets countries. Indices are unmanaged and, unlike the Fund, are not affected by cash flows and do not reflect fees or expenses. An investor cannot invest directly in an index.

2. The MSCI KLD 400 Social Index ("KLD 400 Social") is based on the MSCI USA Investable Market Index (IMI), its parent index, which includes large-, mid-, and small-cap constituents in the U.S. The KLD 400 Social index includes companies in the parent index with high Environmental, Social and Governance (ESG) ratings, while excluding companies whose products have negative social or environmental impacts. Indices are unmanaged and, unlike the Fund, are not affected by cash flows and do not reflect fees or expenses. An investor cannot invest directly in an index.

3. The Price-to-Earnings Ratio ("P/E Ratio") measures the current share price relative to the per-share earnings.
